Curriki
Inspiring Learning Everywhere

Curriki is an online community where educators create, share, and explore high quality K-12 content.

Library

The Curriki library hosts thousands of educator-vetted, openly licensed, online educational materials that teachers, educators, or other professionals have created and have made freely available to others for use, reuse, adaptation, and sharing. Many resources have been aligned to standards and Curriki's Review Team uses the Achieve OER Rubrics to rate materials.

Community

Students and teachers use Curriki Groups to collaborate on projects, curriculum development, and district initiatives.

- Groups can be public or private.
- Private groups are entirely private and secure.
- Share files without sending bulky attachments.
- Communicate in discussion forums.

Assessments

Audio recordings

Diagrams/Illustrations/Maps

E-books: Fiction, Non-fiction, and texts

Full Courses, Units, Lesson plans

Games

Benefits

- Free membership for educators, parents, and students.
- Easy to find content, members, and groups to join.
- Save any resource to your private Curriki Library for quick and easy access to those resources at a later time.
- Upload your own content to the Curriki Library or your private Curriki Library.
- Create and organize collections of content for your own use and share with colleagues.
- See the latest community activity – new resources, group posts, etc. with a real-time aggregated activity feed.
- Form collaborative working groups with colleagues or class groups to communicate and manage your students' work.

Make Curriki part of your school or district's edtech solution today and put the best Open Educational Resources in the hands of your teachers and students.
